

Qumu Pathfinder Edge Appliance (M6)

Q.UMU Pathfinder Edge

Qumu Pathfinder Edge provides network friendly, intelligent delivery of video and associated media content. Whether it's a CEO's live webcast, new product or service introductions or employee-generated content from around the globe, Pathfinder Edge makes enterprise-wide video communication efficient, reliable and secure.

Pathfinder Edge optimizes delivery of both on demand and live video streaming. A Pathfinder Edge eCDN optimizes streaming traffic across the WAN, thus minimizing network load and maximizing cost savings.

Key Features and Benefits

 Minimize the impact of live webcasting on network traffic by ensuring that video is served from the nearest location.

 Perform software updates through a single interface and leverage SNMP MIBs for monitoring Pathfinder Edges centrally.

 Leverage extensive security within Pathfinder Edges and deployments as well as for delivered content.

 Take advantage of RADIUS authentication for additional security.

With a Pathfinder Edge eCDN, scale live webcasts and on demand video to tens of thousands of viewers, optimizing bandwidth usage on corporate networks.

Specifications

Pathfinder Edge Appliance (M6)

Dimensions (WxHxD)

17.1" x 1.7" x 22.7"

Unit Weight

25.5 lb

Power Supply

2x 460W

Processor

Intel® Xeon® CPU E3-1220 v6 @3.0 GHz

Memory

16 GB RAM

Storage

2 TB (2x 2 TB drives in RAID 1 (mirrored) configuration)

Ports

2x USB 3.0 front, 2x USB 3.0 rear, one VGA port (DB-15), 1 enabled RJ-45 GbE network ports (shared for network/ IMM remote management)
